Index to Authors

A

ALMQUIST, M. L. . . Broad-Band Carrier System for Cables 260
ATKINS, G. E. . . . New Magnetic Telephone 282

B

BACON, W. M. . . . Tool Kit for Teletypewriter Maintenance 391
BAILEY, AUSTIN . . An Ultra-Short-Wave Circuit for Palomar Observatory 48
BAYLES, J. C. . . . Making Broadcast Synchronization Easy 347
BESCHERER, E. A. . . A Multi-Frequency Transmitter for the Private Plane . 271
BIDWELL, C. H. . . . Carrier Supply for Type-K Systems 364
BLYE, P. W. . . . . Reducing Disturbances Produced on Telephone Circuits from Power Rectifiers 411
BOGHOSIAN, W. H. . A Filter for Airway Range Systems 88
BOWER, M. M. . . . The Carrier Telephone Alphabet 208
BOZORTH, R. M. . . Higher Magnetic Permeabilities 229
BURGESS, A. A. . . . The 1A Teletypewriter Switchboard 34

C

CORBIN, J. E. . . . An Anti-Static Loop for Aircraft 201
CRANE, R. E. . . . Channel-Terminal Equipment for Broad-Band Carrier Systems 315

D

DECINO, A. . . . . Stability of Reception at Two Meters 244
DE KAY, R. D. . . . Permanent Magnet Machines for Telephone Offices . 236
DICKIESON, A. C. . . The Type-H Carrier Telephone System 76
DIETZOLD, R. L. . . The Isograph—A Mechanical Root-Finder 130
DOBA, JR., S. . . . . Higher Volume without Overloading 174
DOWNES, G. H. . . . Pressure Cleaning 122
DURKEE, A. L. . . . Forecasting Sunspots and Radio Transmission Conditions 127

E

EDWARDS, C. F. . . . Experimental Results from the Musa 232
ELLIOTT, J. S. . . . Precise Measurement of Insertion Phase Shift . . . 285

F

FARMER, W. J. . . . Aluminum Alloy Structural Materials 164
FELDER, H. H. . . . Pilot-Wire Regulators for Voice-Frequency Cable Circuits 421

FELDMAN, C. B. . . . Principles of the Musa 148
FLANDERS, P. B. . . Acoustic Attenuators 403
FLETCHER, HARVEY . Noise Measurements and the International Conference on Acoustics 213

G

GARDNER, L. A. . . . A Teletypewriter Switchboard for Private-Line or PBX Service 379
GARDNER, M. B. . . Hearing Impairment and Sound Intensity 224
GARVIN, J. S. . . . Improvements in Relay Coil Insulation 407
GLASS, M. S. . . . New Cathode-Ray Tubes 110
GRAY, C. R. . . . . The 755 PBX 336

H

HAWORTH, F. E. . . High Dispersion X-Ray Spectrometer 66
HEBBERT, C. M. . . Variation of Cable Loss with Temperature 114
HERBORN, L. E. . . . An Inexpensive Bridge for Capacitance and Conductance Measurements 91
HERMANCE, H. W. . Paper as a Medium in Microanalysis 370
HERRIOTT, W. . . . High-Speed Motion-Picture Photography 279
HICKMAN, C. N. . . Magnetic Recording and Reproducing 2
HIGHT, S. C. . . . Quartz Plates for Frequency Sub-Standards 21
HILL, H. E. . . . . Vibration Studies with the Rapid-Record Oscillograph . 26
HOVGAARD, O. M. . . A Volume-Limiting Amplifier 179
HUBBARD, F. A. . . . A Multi-Channel Radio Monitoring System 62

I

INGMANSON, J. H. . . Non-Corroding Rubber Insulation for Telephone Cords 85

J

JONES, P. F. . . . . A Recording System for Transmission Measurements . 289

K

KOOS, P. V. . . . . The 5 Teletypewriter Switchboard 171
KUEBLER, R. E. . . . The 281A Program Line Panel 383

L

LANE, C. E. . . . . Limitations in High-Frequency Band-Filter Design . . 56
LANGABEER, H. T. . . Supplying Power to Central Offices 43
LAREW, J. L. . . . . Power Supply for the Coaxial Repeaters 239
LEUTRITZ, JOHN . . Laboratory Tests of Wood Preservatives 324

LEVIN, S. A. . . . . High-Frequency Attenuator 99
LIVINGSTON, F. B. . . Conductance in Telephone Cables 141
LLEWELLYN, F. B. . . Equivalent Networks for Negative-Grid Triodes . . 39
LOWRY, L. R. . . . The Musa from the Outside 203

M

MARSHALL, R. N. . . Low-Cost Microphone for Varied Application . . . 80
MASON, W. P. . . . Transmission Line Structures as High-Frequency Networks 118
MCNALLY, J. O. . . New Tubes for Carrier Systems 17
MERCNER, R. O. . . The Mechanism of the Isograph 135
MINER, R. C. . . . Diphonic Loudspeaker for Mirrophonic Sound Systems 53
MITCHELL, D. . . . Automatic Adjustments in Radio-Telephone Control Terminals 157
MITCHELL, D. . . . A Voice-Operated Return-Loss Measuring Set . . . 375

N

NORWINE, A. C. . . Acoustic Delay Circuits for Laboratory Use 400

O

O'LEARY, J. T. . . . Applying the Type-H Carrier Telephone System to Railroads 220
ONG, F. C. . . . . Protective Circuits for Antenna-Coupling Networks . 254
OSGOOD, D. T. . . . Short-Circuiting Relay Protectors 350

P

PIERCE, J. R. . . . . Electron Multiplier Design 305

R

REYNOLDS, J. N. . . The Crossbar Switch in the 755 PBX 332

S

SHARPLESS, W. M. . . Musa Apparatus 153
SINGER, F. J. . . . . The Teletypewriter Exchange Network 167
SKELLETT, A. M. . . Time Lag in Gas-Filled Photoelectric Cells 321
SNOW, W. B. . . . Lifting a Finger against Noise 418
STAEBNER, H. H. . . Rubber-Insulated Station Cords 396
STRIEBY, M. E. . . . Television over the Coaxial Cable 188
SWART, L. K. . . . . Gas-Tube Voltage Recorders 387

T

TEBO, J. D. . . . . Design Features of Short-Circuiting Relay Protectors . 353
THOMAS, JR., U. B. . Lead-Calcium for Storage Batteries 12

W

WAGAR, H. W.	The U-Type Relay	300
WEGMAN, E. C.	Improved Methods in Cable Testing	275
WENTZ, J. F.	Transmission Characteristics of the Coaxial Structure	196
WERRING, W. W.	A New Micrometer Ratchet	162
WILLIAMS, I. V.	Steel in the Telephone Plant	266
WILSON, L. T.	Open-Wire Line Losses	95
WOOD, E. B.	Vapor-Pressure Humidostat and Thermostat	102
WOODWORTH, F. B.	A New Coastal Marine Radio Telephone Set	358
WRATHALL, L. R.	Eddy-Current Shielding in Laminated Cores	7
WRIGHT, S. B.	Noise Protection for Voice-Operated Devices	248

Z

ZAMMATARO, S. J.	An Inductance and Capacitance Bridge	341
ZUPA, F. A.	The Y-Type Relay	310

Index of Subjects, Volume XVI

(Roman numerals refer to Picture Sections)

A

Accounting Department, Tabulating Machines in (Picture) 228
Acoustics (see Sound, Speech, Hearing and Acoustics)
Aircraft (see Radio)
Aluminum Alloy Structural Materials . . . . . *Farmer* . . . 164
Amplifiers
  Higher Volumes Without Overloading . . . . . *Doba* 174
  Volume-Limiting Amplifier . . . . . *Hovgaard* . . 179
Antennas (see Radio)
Attenuators
  Acoustic . . . . . *Flanders* . . . 403
  Acoustic Delay Circuits for Laboratory Use . . . . . *Norwine* . . . 400
  High-Frequency . . . . . *Levin* 99
Awards (see Prizes and Other Honors)

B

Batteries
  253 Relay for Charging (Picture) . . . . . *Thomas* . . . 12
  Lead-Calcium for Storage Batteries . . . . . Nov.–III
Biographies and Personalities
  Davisson, C. J., Awarded Nobel Prize in Physics 108, 152, 216
  Ives, H. E., Honored by Optical Society 84
  Jewett, F. B., Receives Washington Award 207
  Southworth, G. C., Awarded Morris Liebmann Prize 346
  Williams, R. R., Awarded Willard Gibbs Medal 231, 352
Bridges
  For Capacitance and Conductance Measurements . . . *Herborn* . . . 91
  Inductance and Capacitance Bridge . . . . . *Zammataro* . . 341
  Precise Measurement of Insertion Phase Shift . . . . . *Elliott* . . . 285
Broadcast (see Radio)

C

Cables
  Coaxial System
    Coaxial Structures as High-Frequency Filters . . . . *Mason* . . . 118
    New York - Philadelphia Demonstration 108
    Power Supply for Coaxial Repeaters . . . . . *Larew* . . . 239
    Television Over the Coaxial Cable . . . . . *Strieby* . . . 188
    Transmission Characteristics of the Coaxial Structure . *Wentz* . . . 196
  Conductance of Telephone Cables . . . . . *Livingston* . . 141
  Loss Due to Temperature Variations . . . . . *Hebbert* . . . 114

Cables (Continued)
Sheath, Effect of Compression on Cable (Picture) . . . . . Sept.–III
Test Plot at Chester (Picture) 65
Testing Methods . . . . . *Wegman* . . . 275
Calcium, Lead-, for Storage Batteries . . . . . *Thomas* . . . 12
Calculating Machines
The Isograph—A Mechanical Root-Finder . . . . . *Dietzold* . . . 130
The Mechanism of the Isograph . . . . . *Mercner* . . . 135
Carrier Systems
Alphabet of Carrier Systems (Types A to K) . . . . . *Bower* . . . 208
Attenuator, High-Frequency, for Transmission Studies . . *Levin* 99
Channel-Terminal Equipment for Broad-Band Systems . . *Crane* . . . 315
D-99739 Relay (Picture) . . . . . Nov.–II
Limitations in High-Frequency Band-Filter Design . . . *Lane* 56
New York - Philadelphia Coaxial Demonstration 108
Open-Wire Line Losses . . . . . *Wilson* . . . 91
Type-H System . . . . . *Dickieson* . . 76
Type-H System for Railroad Applications . . . . . *O'Leary* . . . 220
Type-K Broad-Band System . . . . . *Almquist* . . 260
Type-K System, Carrier Supply for . . . . . *Bidwell* . . . 364
Vacuum Tubes for (310, 311, 328 and 329 Types) . . . *McNally* . . 17
Cathode-Ray Tubes (325 and 326 Types) . . . . . *Glass* 110
Central Office Equipment
Cabling a Power Board (Picture) . . . . . Feb.–IV
Carrier Supply for Type-K Systems . . . . . *Bidwell* . . . 364
Cleaning, Pressure . . . . . *Downes* . . . 122
Permanent Magnet Machines for Telephone Offices . . . *de Kay* . . . 236
Supplying Power to Central Offices . . . . . *Langabeer* . . 43
Testing Crossbar Circuits (Pictures) 223, 363
Chemical Research
Laboratory Tests of Wood Preservatives . . . . . *Leutritz* . . . 324
Non-Corroding Rubber Insulation for Telephone Cords . *Ingmanson* . . 85
Paper as a Medium in Microanalysis . . . . . *Hermance* . . 370
Chester, N. J.
Cable Test Plot (Picture) 65
Cleaning, Pressure . . . . . *Downes* . . . 122
Contacts, Experiments on Talking 374
Cords
Rubber-Insulated Station Cords . . . . . *Staebner* . . . 396
Rubber Insulation for Cords . . . . . *Ingmanson* . . 85
Coaxial System (see Cables)
Crossbar System
755 PBX . . . . . *Gray* 336
Cabling a Power Board (Picture) . . . . . Feb.–IV
Crossbar Switch in 755 PBX . . . . . *Reynolds* . . 332
Testing Line-Link Circuits (Pictures) 223, 363
Crystals (see Quartz Crystals)

D

Delay Circuits, Acoustic . . . . . *Norwine* . . . 400
Development Shop, Band Saw in (Picture) 178
Drafting Room (Picture) 188
Dry Batteries (see Batteries)

E

Eddy-Current Shielding in Laminated Cores . . . . . *Wrathall* . . 7
Electron Multiplier Design . . . . . *Pierce* . . . 305

F

Ferro-Magnetic Action Demonstration (Picture) 420
Filters
  Coaxial Structures as High-Frequency Filters . . . . . *Mason* . . . 118
  For Airway Range Systems . . . . . *Boghosian* . . 88
  Limitations in High-Frequency Band-Filter Design . . . *Lane* 56

G

Generators
  Permanent Magnet Machines for Telephone Offices . . . *de Kay* . . . 236
  Wind-Driven (Picture) 219

H

Hearing (see Sound, Speech, Hearing and Acoustics)
Honors (see Prizes and Other Honors)
Humidostat and Thermostat, Vapor-Pressure . . . . . *Wood* 102

I

Insulation
  Improvements in Relay Coil Insulation . . . . . *Garvin* . . . 407
  Rubber-Insulated Station Cords . . . . . *Staebner* . . . 396
  Rubber Insulation for Cords . . . . . *Ingmanson* . . 85
  Vapor-Pressure Humidostat and Thermostat . . . . . *Wood* 102
International Conference on Acoustics . . . . . *Fletcher* . . . 213
Isograph
  A Mechanical Root-Finder . . . . . *Dietzold* . . . 130
  The Mechanism of the Isograph . . . . . *Mercner* . . . 135

L

Lead-Calcium for Storage Batteries . . . . . *Thomas* . . . 12
Loudspeakers (see Public Address Systems)

M

Magnetic Recording and Reproducing . . . . . *Hickman* . . 2
Magnetic Telephones . . . . . *Atkins* . . . 282

Magnetization
Casting a Magnetic Alloy (Picture) 259
Eddy-Current Shielding in Laminated Cores . . . . . *Wrathall* . . 7
Ferro-Magnetic Action Demonstration (Picture) 420
Higher Magnetic Permeabilities . . . . . *Bozorth* . . . 229
Maintenance and Adjustment
Automatic Adjustments in Radio-Telephone Control Terminals . . . . . *Mitchell* . . . 157
Pressure Cleaning . . . . . *Downes* . . . 122
Tool Kit for Teletypewriter Maintenance . . . . . *Bacon* . . . 391
Materials
Aluminum Alloy Structural . . . . . *Farmer* . . . 164
High-Speed Motion-Picture Studies of . . . . . *Herriott* . . . 279
Steel in the Telephone Plant . . . . . *Williams* . . 266
Measurements and Testing
Attenuator, High-Frequency . . . . . *Levin* 99
Bridges
For Capacitance and Conductance Measurements . . . *Herborn* . . . 91
For Capacitance and Inductance Measurements . . . *Zammataro* . . 341
Cables
Conductance of Telephone Cables . . . . . *Livingston* . . 141
Loss Due to Temperature Variations . . . . . *Hebbert* . . . 114
Effect of Compression on Sheath (Picture) . . . . . Sept.–III
Effect of Stretching on Sheath (Picture) 382
Test Plot at Chester, N. J. (Picture) 65
Testing Methods for Cables . . . . . *Wegman* . . . 275
Contacts, Experiments on Talking 374
Eddy-Current Shielding in Laminated Cores . . . . . *Wrathall* . . 7
Fatigue in Wire Ties (Picture) . . . . . Sept.–II
Humidostat and Thermostat, Vapor-Pressure . . . . . *Wood* 102
Insertion Phase Shift, Precise Measurement of . . . . . *Elliott* . . . 285
Line Losses, Open-Wire . . . . . *Wilson* . . . 91
Micrometer Ratchet . . . . . *Werring* . . . 162
Optical Apparatus Measures to 0.00005 inch (Picture) 147
Quartz Plates for Frequency Sub-Standards . . . . . *Hight* . . . 21
Receivers
Calibration of Standard Comparison (Picture) . . . . . May–I
Measuring Flux Density in (Picture) . . . . . Sept.–III
Separation between Pole Pieces and Diaphragm (Picture) . . . . . May–II
Testing a Bone-Conduction Receiver (Picture) 395
Recording System for Transmission Measurements . . . *Jones* 289
Standing Waves in Concentric Line (Picture) . . . . . Sept.–I
Silk, Acoustic Resistance of (Picture) 424
Transmitters
Dynamic Characteristics of Carbon (Picture) 331
Measuring Handset Carbon (Picture) 104
Thickness of Paper Damping Ring (Picture) . . . . . Sept.–IV

Measurements and Testing (Continued)
Vibration Studies with Oscillograph . . . . . *Hill* 26
Voice-Operated Return-Loss Measuring Set . . . . . *Mitchell* . . . 375
Voltage Indicator for Recording Transient Voltages on Telephone Lines (Picture) . . . . . Feb.–III
Voltage Recorders, Gas-Tube . . . . . *Swart* . . . 387
X-Ray Spectrometer . . . . . *Haworth* . . 66
Microanalysis, Paper as a Medium in . . . . . *Hermance* . . 370
Micrometer Calipers . . . . . *Werring* . . . 162
Microphones
633A . . . . . *Marshall* . . 80
Directional (Picture) 52
Microphonic Sound System . . . . . *Miner* . . . 53
Motion-Picture Studies of Materials, High-Speed . . . . *Herriott* . . . 279
Motion Pictures Transmitted Over Coaxial Cable . . . . *Strieby* . . . 188
Musa (see Radio, Transoceanic)

N

Networks, Transmission Line Structures as High-Frequency *Mason* . . . 118
New York World's Fair (Picture) 299
Noise, Lifting a Finger Against . . . . . *Snow* 418
Noise Measurements and the International Conference on Acoustics . . . . . *Fletcher* . . . 213
Noise Protection for Voice-Operated Devices . . . . . *Wright* . . . 248

O

Oscillators
For Voice-Frequency Carrier Telegraph (Picture) . . . . . Feb.–I
Oscillating Crystal 357
Test Oscillator at Deal (Picture) 75
Oscillographs, Vibration Studies with . . . . . *Hill* 26
Outside Plant
Cable Test Plot at Chester, N. J. (Picture) 65
Fatigue in Wire Ties (Picture) . . . . . Sept.–II
Measuring the Stretching of Cable Sheath (Picture) 382
Short-Circuiting Relay Protectors
Applications . . . . . *Osgood* . . . 350
Design Features . . . . . *Tebo* 353

P

Palomar Observatory, Ultra-Short-Wave Circuit for . . . *Bailey* . . . 48
Paper as a Medium in Microanalysis . . . . . *Hermance* . . 370
Permeabilities, Higher Magnetic . . . . . *Bozorth* . . . 229
Photoelectric Cells, Time Lag in Gas-Filled . . . . . *Skellett* . . . 321
Physical Research
Acoustic Delay Circuits for Laboratory Use . . . . . *Norwine* . . . 400

Physical Research (Continued)
Electron Multiplier Design . . . . . *Pierce* . . . 305
Ferro-Magnetic Action Demonstration (Picture) 420
Hearing Impairment and Sound Intensity . . . . . *Gardner* . . . 224
High Dispersion X-Ray Spectrometer . . . . . *Haworth* . . 66
Higher Magnetic Permeabilities . . . . . *Bozorth* . . . 229
Lifting a Finger Against Noise . . . . . *Snow* 418
Noise Measurements and the International Conference on Acoustics . . . . . *Fletcher* . . . 213
Relationship Between Current and Potential in Space Between Grid and Plate in Vacuum Tube (Picture) 335
Talking Contacts, Experiments on 374
Time Lag in Gas-Filled Photoelectric Cells . . . . . *Skellett* . . . 321
Pilot-Wire Regulators for Voice-Frequency Cable Circuits . *Felder* . . . 421
Preservatives, Laboratory Tests of Wood . . . . . *Leutritz* . . . 324
Private Branch Exchanges
755 PBX . . . . . *Gray* 336
Crossbar Switch in the 755 PBX . . . . . *Reynolds* . . 332
Prizes and Other Honors
Morris Liebmann Prize to G. C. Southworth 346
Nobel Prize in Physics to C. J. Davisson 108, 152, 216
Optical Society Honors H. E. Ives 84
Washington Award to F. B. Jewett 207
Willard Gibbs Medal to R. R. Williams 231, 352
Power Rectifiers, Reducing Disturbances from . . . . . *Blye* 411
Power-Supply Systems
253A Relay for Battery Charging (Picture) . . . . . Nov.–III
Cabling a Power Board (Picture) . . . . . Feb.–IV
For Coaxial Repeaters . . . . . *Larew* . . . 239
Permanent Magnet Machines for Telephone Offices . . . *de Kay* . . . 236
Supplying Power to Central Offices . . . . . *Langabeer* . . 43
Wind-Driven Generator (Picture) 219
Protectors, Short-Circuiting Relay
Applications . . . . . *Osgood* . . . 350
Design Features . . . . . *Tebo* . . . 353
Public Address Systems
Diphonic Loudspeaker for Mirrophonic Sound Systems . . *Miner* . . . 53

Q

Quartz Crystals
Limitations in High-Frequency Band-Filter Design . . . *Lane* 56
Oscillating Crystals 357
Plates for Frequency Sub-Standards . . . . . *Hight* . . . 21

R

Radio
Aircraft
Anti-Static Loop for Aircraft . . . . . *Corbin* . . . 201

Radio (Continued)
Douglas DC-4 Airliner (Picture) 410
Filters for Airway Range Systems . . . . . *Boghosian* . . 88
Multi-Frequency (25A) Transmitter for Private Plane *Bescherer* . . 271
Antennas
Anti-Static Loop for Aircraft . . . . . *Corbin* . . . 201
Musa
Antenna System . . . . . *Lowry* . . . 203
Apparatus . . . . . *Sharpless* . . 153
Experimental Results . . . . . *Edwards* . . . 232
Principles . . . . . *Feldman* . . . 148
Protective Circuits for Antenna-Coupling Networks . . *Ong* 254
Broadcast
281A Program Line Panel . . . . . *Kuebler* . . . 383
Console-Type Speech-Input Equipment 295
Directional Microphone (Picture) 52
Higher Volumes Without Overloading . . . . . *Doba* 174
Making Broadcast Synchronization Easy . . . . . *Bayles* 347
Protective Circuits for Antenna-Coupling Networks . . *Ong* 254
Volume-Limiting Amplifier . . . . . *Hovgaard* . . 179
General
Forecasting Sunspots and Radio Transmission Conditions *Durkee* . . . 127
Line Structures as High-Frequency Networks . . . *Mason* . . . 118
Measuring Standing Waves in Concentric Line (Picture) . . . . . Sept.–I
Stability of Reception at Two Meters . . . . . *Decino* . . . 244
Sunspot Activity 373
Test Oscillator at Deal (Picture) 75
Marine
Costal Radio-Telephone Set . . . . . *Woodworth* . . 358
Point-to-Point
Ultra-Short-Wave Circuit for Palomar Observatory . . *Bailey* . . . 48
Receivers
D-99167 Radio Receiver . . . . . *Hubbard* . . 62
Ship-to-Shore
S.S. Washington Installation (Picture) 215
Transmitters
25A Multi-Frequency Transmitter . . . . . *Bescherer* . . 271
Transoceanic
Automatic Adjustment at Control Terminals . . . . *Mitchell* . . . 157
Multi-Channel Radio Monitoring System . . . . . *Hubbard* . . 62
Musa (see Radio, Antennas)
Railroads, Applying Type-H System to . . . . . *O'Leary* . . . 220
Receivers
Measuring Flux Density (Picture) . . . . . Sept.–III
Open-Field Calibration of Standard Comparison (Picture) . . . . . May–I
Separation Between Pole Pieces and Diaphragm (Picture) . . . . . May–II
Testing a Bone-Conduction Receiver (Picture) 395

Recording Systems
Gas-Tube Voltage Recorders . . . . . *Swart* . . . 387
Magnetic Recording . . . . . *Hickman* . . 2
Transmission Measurement Recording System . . . . *Jones* 289
Rectifiers, Reducing Disturbances from Power . . . . . *Blye* 411
Regulators, Pilot-Wire, for Voice-Frequency Cable Circuits . *Felder* . . . 421
Relays
253A for Battery Charging (Picture) . . . . . Nov.–III
Adjusting Telegraph Relays (Picture) . . . . . Feb.–II
D-81431 for Submarine Cable Telegraph (Picture) . . . . . Nov.–IV
D-99739 for Voice-Operated Circuits (Picture) . . . . . Nov.–II
Improvements in Relay Coil Insulation . . . . . *Garvin* . . . 407
Miscellaneous Group for Communication Circuits (Picture) . . . . . Nov.–I
Short-Circuiting Relay Protectors
Applications . . . . . *Osgood* . . . 350
Design Features . . . . . *Tebo* 353
U-Type . . . . . *Wagner* . . . 300
Vibration Studies with Oscillograph . . . . . *Hill* 26
Y-Type . . . . . *Zupa* 310
Reproducing, Magnetic . . . . . *Hickman* . . 2
Return-Loss Measuring Set, Voice-Operated . . . . . *Mitchell* . . . 375
Rubber-Insulated Station Cords . . . . . *Staebner* . . . 396
Rubber Insulation for Telephone Cords . . . . . *Ingmanson* . . 85

S

Silk, Acoustic Resistance of (Picture) 424
Sound, Speech, Hearing and Acoustics
Acoustic Attenuators . . . . . *Flanders* . . . 403
Acoustic Delay Circuits for Laboratory Use . . . . . *Norwine* . . . 400
Acoustic Resistance of Silk (Picture) 424
Hearing Impairment and Sound Intensity . . . . . *Gardner* . . . 224
Lifting a Finger Against Noise . . . . . *Snow* 418
Noise Measurements and the International Conference on Acoustics . . . . . *Fletcher* . . . 213
Spectrometer, High-Dispersion X-Ray *Haworth* . . 66
Standards, Quartz Plates for Frequency Sub- . . . . . *Hight* . . . 21
Statistics of World Telephones 417
Steel in the Telephone Plant . . . . . *Williams* . . 266
Storage Batteries (see Batteries)
Subscriber Station Equipment
755 PBX . . . . . *Gray* 336
Magnetic Telephone . . . . . *Atkins* . . . 282
Rubber-Insulated Station Cords . . . . . *Staebner* . . . 396
Rubber Insulation for Telephone Cords . . . . . *Ingmanson* . . 85
Sunspots
Activity of 373
Forecasting . . . . . *Durkee* . . . 127

T

Tabulating Machines in Accounting Department (Picture) 228
Talking Contacts, Experiments on 374
Telegraph Systems and Equipment
1A Teletypewriter Switchboard . . . . . *Burgess* . . . 34
5 Teletypewriter Switchboard . . . . . *Koos* 171
Adjusting Relays (Picture) . . . . . Feb.–II
D-81431 Relay (Picture) . . . . . Nov.–IV
Oscillators for Voice-Frequency System (Picture) . . . . . Feb.–I
Sloping Keyshelf for 1A Teletypewriter Switchboard (Picture) 33
Teletypewriter Switchboard for Private-Line or PBX Service . . . . . *Gardner* . . . 379
Teletypewriter Exchange System . . . . . *Singer* . . . 167
Tool Kit for Teletypewriter Maintenance . . . . . *Bacon* . . . 391
Telephone, Magnetic . . . . . *Atkins* . . . 282
Telephones, Statistics of the World 417
Teletypewriter Systems (see Telegraph Systems and Equipment)
Television
Coaxial Cable System Transmits Motion Pictures 108
Over Coaxial Cable . . . . . *Strieby* . . . 188
Testing (see Measurements and Testing)
Thermostat and Humidostat, Vapor-Pressure . . . . . *Wood* 102
Toll Systems and Equipment
Carrier Supply for Type-K System . . . . . *Bidwell* . . . 364
Carrier Systems, General Description of (Types A to K) . *Bower* . . . 208
Channel-Terminal Equipment for Broad-Band Systems . *Crane* . . . 315
Noise Protection for Voice-Operated Devices . . . . . *Wright* . . . 248
Open-Wire Line Losses . . . . . *Wilson* . . . 95
Pilot-Wire Regulators for Voice-Frequency Cable Circuits *Felder* . . . 421
Type-H Carrier System . . . . . *Dickieson* . . 76
Type-K Carrier System . . . . . *Almquist* . . 260
Voice-Operated Return-Loss Measuring Set . . . . . *Mitchell* . . . 375
Tool Kit for Teletypewriter Maintenance . . . . . *Bacon* . . . 391
Transformers
Eddy-Current Shielding in Laminated Cores . . . . . *Wrathall* . . 7
Transmission Measurements, Recording System for . . . . *Jones* 289
Transmitters
Dynamic Characteristics of Carbon Transmitters (Picture) 331
Measuring Thickness of Paper Damping Ring (Picture) . . . . . Sept.–IV

V

Vacuum Tubes
310, 311, 328 and 329 Types for Carrier Systems . . . . *McNally* . . 17
325 and 326 Cathode-Ray Tubes . . . . . *Glass* 110
Electron Multiplier Design . . . . . *Pierce* . . . 305

Vacuum Tubes (Continued)
Equivalent Networks for Negative-Grid Triodes . . . . *Llewellyn* . . 39
Negative-Grid Short-Wave (Picture) 38
Relationship Between Current and Potential in Space Between Grid and Plate (Picture) 335
Time Lag in Gas-Filled Photoelectric Cells . . . . . *Skellett* . . . 321
Vibration Studies with Oscillograph . . . . . *Hill* 26
Voice-Operated Devices, Noise Protection for . . . . . *Wright* . . . 248
Voltage-Recorders, Gas-Tube . . . . . *Swart* . . . 387
